THE STATE OF OBSOLETE PESTICIDES IN UZBEKISTAN

Note: the data listed below are only rough provisional data collected from various sources! Due to ongoing works executed in the National implementation Plans for a large number of EECCA countries within the framework of the Stockholm Convention better information about the amounts are being generated. However, these amounts will vary periodically and the exact amounts will only occur during the works of field inventory and clean-up. It is the experience that in the end the real amounts found are much higher

IHPA requests kindly to all involved stakeholders to send new information to the Secretariat (john.vijgen@get2net.dk) in order to update the information regularly

New EU Member countries amounts:

Country/State	Estimated Total Tons OPs
Czech Republic	400
Estonia	700
Hungary	314
Latvia	2,000
Lithuania	2,339
Poland	7,000-9,000
Slovak Republic	300
Slovenia	7
Total	13,060- 15,060

Balkan-Region amounts:

Country/State	Estimated Total Tons OPs
Albania	3
Bosnia & Herzegovina	unknown
Bulgaria	11,222
Croatia	None
Kosovo	8
Republic of Moldova	3,931
Romania	400
Serbia and Montenegro	Unknown
FYR Macedonia	30,200-33,200
Total	45,764 – 48,764

Europe's New Neighbours amounts:

Country/State	Estimated Total Tons OPs
Belarussia	6,000 (4,100)
Russian Federation	> 100,000 [©]
Ukraine	25,000
Turkey	3,000-3,300
Total	132,100-134,400

Caucasus and Central Asia amounts:

Country/State	Estimated Total Tons OPs
Armenia	800
Azerbaijan	4,000*
Georgia	3,000
Kazakhstan	10,000 ⁴
Kyrgyzstan	2,000*
Tajikistan	3,300
Turkmenistan	1,671
Uzbekistan	17,718
Total	42,489

Categories and amounts in total:

	Tonnes
New Member countries	13,060 - 15,060
Balkan-Region	45,764 – 48,764
Europe's New Neighbours	132,100 -134,400
Central Asia	42,489
Total for Central European and EECCA region	233,413 - 240,713
