

# Obsolete pesticides

## Why are we here?

**250 - 300.000 tons: a problem?**

Why worry?

**Why worry?**

# Time runs: a problem?

# Why worry?

# Issues

- **Environment: sick people, water and soil pollution**
- **Food contamination → European Consumers.....**
- **Chemical weapons → terrorist threats.....**
- **Do it for them ...but also for yourself..**

# Milieukontakt, IHPA, SNM and Tauw

- We have shown we can do it.
- We have inventorised and repacked more than 400 tonnes in Moldova, Georgia and Kyrgyzstan
- The Dutch Ministry of Foreign Affairs gave the first push
- Now it is up to you to follow .....

**They have no money but ....they  
stand up for obsolete pesticides**

**This is an opportunity for you**

**Support projects to implement these  
"sustainable" technologies**

**Join us for the elimination of  
obsolete pesticides**

**We tell the world that you made a  
difference**

**Every tonne destroyed counts.....**

**Show them you made a difference**
